RIVETS By George Sixto

**BANQUET SPEAKER . . .** Dr. Robert Donaldson, flight surgeon for North American Aviation, will speak on "Medical Problems of Supersonic Flight" Saturday at a meeting of the International Organization of Women Pilots at 2900 Pacific Coast Highway.

**Flight Surgeon to Speak At Women Pilots Meeting**

Dr. Robert Donaldson, North American Aviation flight surgeon at the firm's Los Angeles Division, will speak Saturday night at a banquet of the International Organization of Women Pilots, better known as the Ninety-Nines. His topic will be "Medical Problems of Supersonic Flight." Dr. Donaldson, a Santa Monica resident, is an undergraduate of Washington and Jefferson College in Washington, Pa. He has attended the University of Pittsburgh School of

Medicine and Ohio State University School of Aviation Medicine where he received his master's degree. The speaker spent four years as a general practitioner and studied preceptorship at Pan American World Airways in Jamaica, N.Y., before going to work for North American Aviation in 1961. His duties at North American are the health maintenance of test and transport pilots and special examinations which have included the special testing of humans required for the X-15 flights. Dr. Donaldson is also working on the human factors involved to complete the B-70 project.

Dr. Donaldson has had many opportunities to fly with the North American Pilots in the T-39, a two engine jet aircraft which his company builds for the Navy. Saturday night's banquet will be at 2900 Pacific Coast Hwy.

Cadillac presents for 1962 the Masterwork of the Motoring Age

Fleetwood Sixty Special, above; Sedan de Ville, below.

You have had your first look at the new "car of cars".

Its name is Cadillac—and its destiny is a place among the most renowned automobiles of our time.

Its new styling is remarkably clean and crisp and graceful—with a look of "rightness" in every line and contour and detail.

Cadillac's new Fleetwood interiors beckon with a jewel-like beauty. There are marvelous new fabrics and leathers . . . and new conveniences and appointments on every hand.

Engineering triumphs include independent front and rear braking . . . exclusive new cornering lamps that light your way around turns . . . and a revolutionary three-phase rear lighting system.

Yet, some of the noblest advances cannot be seen. They must be felt and sensed—performance that is incredibly quiet and smooth and nimble . . . handling ease so great that the mere weight of your hand puts you in command of the road . . . craftsmanship that is so practiced and so precise that the car has

become a marvel of construction and a paragon of dependability.

These new Cadillac wonders are evident in each of twelve new body styles—and are available with the widest selection of interiors in Cadillac history.

Even if you have never before considered a Cadillac—you should take a journey in this one.

It's Cadillac for 1962. And we suggest you inspect it soon at your nearest authorized dealer because you'll be hearing a lot about it.
